W835 Wireless Boom Angle Indicator System

System Description:

The W835 provides a digital readout of the crane boom angle. The display has user adjustable boom angle limits with audio and visual alarm when these limits are reached. The display is wirelessly connected to the boom mounted angle sensor. The system comes pre-calibrated and is quick and easy to install.

The W835 system is a cost effective solution to comply with OSHA requirements and make your crane operators job safer and easier. With the wireless connection it will fit on any crane.

- Wireless connection.
- Fast and easy install.
- User settable angle limits.
- Complies with OSHA regulations.
- Pre-calibrated. Accurate to +/- 2 degrees.
